GOOGAN SOLUTIONS

Purpose

This document represents preliminary understanding of the project. Your comments and feedback will ensure that we fully understand your goals and take the right approach. Taking this important step will enable us to deliver a project on time and satisfy your requirements.

1.1 Project Scope

The main aim of the website is to give a good image and identity to your company within the internet.

Design and develop an online website in Arabic and English language and default language will be Arabic where the client can have a look to our services, about us, customers and contact us

The website will contain all necessary pages that enable the visitor to identify the company.

With time this website should to build a database of our visitors and client and in the field men-tioned above so we can communicate with them by email whenever needed. This website should enable the Admin to control any addition or deletion of items, services , customers , about us when nec-essary

Admin Panel where all the required data is being added for the website, and Control all content are listed below in Admin panel.

GOOGAN SOLUTIONS
